

Our Education Philosophy

We believe that parents hold the primary responsibility for the education of their children and that our role is to assist them. BBLA desires to work closely with our families and to be active partners with parents throughout the process of teaching students based on biblical truths.

Our Christ-centered education introduces our students to every academic subject with the understanding that there is a God and that He has a personal relationship with each of us.

Bright Beginning's Learning Academy integrates faith and learning in all that we say and do. We hope to expose our children to a world-wide view that is developmentally appropriate and communicates that God is the source of truth.

We believe, that without an understanding of who God is, that our educational programs will not meet the emotional and spiritual needs of our students and staff. We are non-denominational in our philosophy and will do all that we can to impart knowledge of this world as it is, and the knowledge of the God who created it, in order to produce students, who glorify God in their thoughts, words, and deeds.
